Commitment to Islamic Values	V1	01.12.2024

OUR COMMITMENT TO ISLAMIC VALUES

The European Halal Certification Institute (EHZ) is a non-profit organization operated by the Islamic Community Milli Görüş (İGMG).

EHZ advises the food industry, inspects its products and production systems, and certifies them if they meet the Halal guidelines established by the EHZ Scholars' Council.

All EHZ staff, including the leadership team, work in accordance with Islamic values and receive regular training on Islamic principles and regulations. EHZ is responsible for ensuring that both its employees and subcontractors adhere to the fundamental principles of Halal Islamic rules.

EHZ conducts all its activities in alignment with Islamic values and acts with an awareness of its Islamic responsibility as conveyed in the Quran and through the teachings of the Prophet Muhammad (saw).

To inform all relevant parties about our Islamic values, the Irshad Department of Milli Görüş organizes conferences and training sessions within communities (Helal Hayat Konferansları). EHZ participates in Halal product fairs and aims to represent the interests of all Muslim consumers.

I hereby declare that in the execution of our duties and responsibilities in the areas of monitoring, certification, and all other processes, I will always remain faithful to the fundamental Islamic principles and all Islamic regulations. I commit to handling all matters with Islamic sensitivity and supporting the core Halal-Islamic laws without compromising our honesty and integrity.
